MiniDebConf Cambridge
26 November 2023
Arm Cambridge

Who are we?

- Luke W Faraone (lfaraone)
- Sruthi Chandran (srud)
- Jean-Philippe Mengual (texou)
- Andy Cater (amacater)
- Steve McIntyre (93sam)

DPL delegation to form the team

What do we do?

- Trying to make Debian a welcoming place
- Trying to stop bad behaviour on IRC/lists
- Giving people quiet advice
- Trying to stop arguments

Taking a dispassionate view to try and make things better for everyone

Where?

- Mail: community@debian.org
- Mailing lists
- IRC – watching various channels

Trying to move “wrong list” posters away from debian-project / debian-devel and other lists

Trying to impose some order on debian-user so that it remains useful

Working with others

- Volunteers in different time zones
- Not “enforcers” – no special powers but we are Debian developers
- People can refer something to us / ask us to give an opinion / ask us to mediate
- Will chat to IRC admins / mailing list folk

Very occasionally we will ask for one user's access to lists / IRC to be suspended

Questions / Discussion

- Questions?
- Discussion

This is your space to comment/ask questions/disagree.

Community team members may moderate discussion and/or remind participants of the Debian Code(s) of Conduct as appropriate 😊
